Continuation of 3. NOTE:

Applicant's proposed amendment introduces limitations absent from the previous version of the claims. In doing so, the proposed amendment raises new issues related to a change in the scope of the claims. A proper and sufficient response to these new issues would require further consideration and/or search.

In particular, notice at least the following limitation from proposed amended independent claims 1, 7, 8, and 14:

"printed circuit board".

The previous corresponding limitation of simply "circuit board" (filed on 18 April 2008) is not as narrow in scope as the proposed amended limitation of "printed circuit board" (filed on 03 November 2008). For example, common examples of circuit boards that are not "printed circuit boards" include breadboards, perfboards, and stripboards. Accordingly, a proper and sufficient response to this change in scope requires further consideration and/or search.
